Chapter 1: Tournament Overview

1. Tournament Summary

東合祭 -溶炉- (TOGOSAI -yoro-) is a 3-player team competition targeting Arknights' *"Integrated Strategies #5: Sarkaz's Furnaceside Fables"*.

Each team member completes one official run. Final team standings are determined strictly by the total sum of Tournament Points (TP) earned by all three members.

Important: In-game scores are NOT used for rank determination; only our custom TP scoring system applies. Teams must strategically assign Squads and 6★ Operators among members without overlap, making team strategy and role distribution just as vital as individual skill.

2. Event Details

Item	Details
Target Game	Arknights (Integrated Strategies #5: Sarkaz's Furnaceside Fables)
Format	3-Player Team Battle (Ranked by Total Team TP)
Registration Period	August 1, 2026 – August 21, 2026 (Max 8 Teams, First-come basis)
Pre-recording Window	August 22, 2026 – September 20, 2026
Main Event Period	September 21, 2026 – October 5, 2026 (Tentative)
Reserve Day / Final Rank	October 7, 2026 (Tentative)
Usable Operators	All Operators implemented as of the first day of the Main Event

■ 3. Prizes

Each member of the winning team will receive the equivalent of **2 months of Monthly Cards (Monthly Headhunting Pack)** for Arknights. (PayPal transfer or electronic gift cards. Any transaction fees borne by recipient.)

■ 4. Application Process

Applications are accepted via Google Form. Staff will not match players; recruit teammates via SNS (X/Twitter) using hashtag "#東合祭".

[Application Form URL]

<https://forms.gle/zwSfZ2BGJzkK58Y37>

■ 5. Participation Requirements

Upon registration, clear result screenshots from all 3 team members must be submitted. Submitted results must satisfy all of the following conditions:

- Cleared on difficulty "Facing Souls 18"
- Possesses both "Pledge of Babel" and "Anasa's Karma"
- Reached the Ending "Impeccable Day"
- Must be an official result achieved personally by the participating player
- All 3 team members must have cleared using different Squads
- Screenshots must be taken during the official recruitment period

Chapter 2: Competitive Rules

■ 6. Basic Rules

This tournament is conducted as a 3-player team match. Each member performs exactly one official run, and final team rank is determined by the total accumulated TP of all 3 members.

【Squad & 6★ Operator Restrictions】

Within the same team, duplicate use of the same Squad or the same 6★ Operator is strictly prohibited.

*Pre-submission of chosen Squads and 6★ Operators is NOT required. As long as there is no overlap within the team at the moment the run begins, it is valid.

【Prospective Investment Restriction】

The total amount of Originium Ingot that can be withdrawn from the Investment System by the entire team is restricted to a maximum of **200 Originium Ingots per team**.

*Teams must manage and ensure that the combined withdrawal amount across all 3 runners does not exceed 200 Originium Ingots.

■ 7. Tournament Points (TP)

TP is awarded for designated Emergency Operations, Floor 3 Empowered Bosses, and Endings. Normal Operations sharing the same stage name do NOT award TP.

- **【Stage Clear Prerequisite】**

Clearing the target stage is an absolute prerequisite for earning any TP. If a stage is not cleared (retreated or failed), no TP—including base clear TP or secondary bonus TP (e.g. Floor 5 spawn bonus, Fractured bonus)—will be awarded. When multiple scoring criteria are met upon clearing a stage, all corresponding TP values are cumulatively added.

- **【Leakless Rule Exception (Enemy Unit 'Finale Cadence')】**

In Emergency Operations, if the ONLY enemy unit that enters the Objective Zone is "**Finale Cadence**" (meaning zero other enemies leaked), the run is exceptionally treated as **Leakless**. (*In "Fate's Finale", this exception does NOT apply, and leaking "Finale Cadence" counts as a normal leak.)

- **【Duplicate Emergency Operation Clearance】**

If the same Emergency Operation is cleared multiple times in a single run, TP does NOT stack. Only the single highest TP score achieved on that stage will be counted.

- Passing through "Holy City" results in a final TP of **0 points** for that runner.
- Using "Ingots Squad" or "Blueprint Squad" incurs a **-40 TP penalty** on the runner's final score.

8. TP Scoring Table

Tournament Points (TP) are awarded or deducted based on designated stages and clear conditions below.

Category	Target Stage / Condition	TP
Emergency Operations	Chaos (Clear)	+30
	Elusive Merc (Clear / Leakless)	+50 / +20
	Frequent Dispute (Clear / Leakless)	+50 / +20
	Regular Army (Clear / Leakless)	+50 / +20
	Rhine Guardians (Clear / Leakless)	+40 / +20
	Quest For Consensus (Clear / Floor 5 Spawn)	+10 / +30
	Divine Desire (Clear / Floor 5 Spawn)	+10 / +30
	'Heretics' (Clear / Floor 5 Spawn)	+20 / +40
	Heavenly Paradise (Clear / Floor 5 Spawn)	+40 / +60
Floor 3 Empowered Bosses	Courtyard of Farewells (Clear)	+40
	Brave Souls Marching (Clear)	+40
	Under The Crown (Clear)	+40
Endings	Emergency Lecture (Clear / Fractured)	+40 / +10
	Cognitive Correction (Clear / Fractured)	+200 / +10
	Court Visit (Clear / Fractured)	+100 / +10
	The Court of Souls (Clear / Fractured)	+200 / +10
	Holy City (Pass Through)	Final TP = 0
	The Dharma Sermon (Clear / Defeat Qui'lon / Fractured)	+50 / +100 / +120
	Fate's Finale (Clear / Fractured / Reality of the End / Leakless / Reality + Leakless)	+150 / +100 / +100 +80 / +40
Score Modifiers	Use Ingots Squad	-40
	Use Blueprint Squad	-40

* Note: Clearing the stage is mandatory for all TP awards.

* Base clear TP for "Fate's Finale" is updated to +150. In Emergency Operations, if "Finale Cadence" is the SOLE enemy that leaked, it is treated as Leakless. In "Fate's Finale", leaking "Finale Cadence" breaks Leakless status normally.

■ 9. Standings & Tie-breakers

Final team standings are determined by total team TP. Ties resolved via lowest TP → highest TP.

■ 10. Time Limit

Each runner has a **3-hour limit**. Battles started before 3h mark can be finished.

■ 11. Run Starting Position

Regardless of the selected Squad, the official run starts when the runner confirms the Floor 1 map.

***Node refreshing when confirming the Floor 1 map (before starting the run) is strictly prohibited.**

■ 12. Retry & Reroll Procedure

Rules regarding Retries and Rerolls are defined as follows:

【Standard Retry Rule】

Runners may retry 1 time before entering a combat node on Floor 3 to reroll Operation Rewards.

***Only during this 1st Retry, the 3-hour timer is reset once.**

【Retry Rule for Missing "Fated Encounter"】

If the event **"Fated Encounter"** does not spawn at the first "Uncanny Encounter" node on Floor 1, **runners may reroll Operation Rewards.**

- This specific reroll has **unlimited attempts.**
- **The 3-hour timer will NOT be reset.**
- If "Fated Encounter" still does not spawn after using the Standard Retry, runners may continue rerolling for Operation Rewards without timer resets.

■ 13. Prohibited Items & Actions

【Prohibited Collectibles】

Obtaining any of the following Collectibles is strictly banned. Final TP becomes 0.

- Rhoder's Gate • Masterless Memories • Prophet Horn

【Node Refreshing Prohibited】

Node refreshing when confirming the Floor 1 map (before starting the run) is strictly prohibited.

【Strategy Info & Misconduct】

- **Strategy Information Restrictions:** Receiving outside strategy advice during a run (including stream comments/chat or SNS) is strictly forbidden.
- **Misconduct:** Cheating, data tampering, or pilot play will result in immediate disqualification.

Chapter 3: Operation & Management

■ 14. Team Communication

Team members are strongly encouraged to communicate freely via Voice Chat (Discord VC) during runs. Single-player runs are permitted. Staff members in VC must be muted by runners during competition.

■ 15. Streaming & Discord Rules

Screen sharing on the official tournament Discord is mandatory. Personal streaming is permitted, provided runners do NOT read chat/comments or receive stream advice during the match.

■ 16. Main Event Flow

A maximum of 2 runners will compete sequentially per day (no parallel runs). All runners must join the Discord server prior to gathering time. Late arrivals may wait up to 30 minutes before rescheduling to the reserve day.

■ 17. Pre-recording Rules

Runners unable to attend live matches may submit pre-recorded runs upon prior approval (Window: Aug 22 – Sep 20, 2026).

- Must apply in advance, join designated Discord VC, share screen, and obey live tournament rules.
- Only video stitching (joining multiple raw files) is allowed. Cut editing or content alteration is forbidden.
- Switching to pre-recording after the Main Event begins is not permitted.

■ 18. Penalties & Disqualification

Rule violations will result in a 0 TP score or full team disqualification depending on severity.

Main Subjects: Acquiring banned Collectibles, outside strategy coaching, cheating, pilot play, or unsportsmanlike behavior.

■ 19. Miscellaneous

Unspecified situations or emergency rulings are subject to final decision by the Executive Committee. Team withdrawals must be reported immediately.

Chapter 4: FAQ & Glossary

■ Chapter 4 FAQ

[Application & Team Setup]

Q Can tournament staff help me find teammates?

No, staff will not introduce or match players. Please recruit teammates via SNS (X/Twitter) using hashtag "#東合祭".

Q Do we need to pre-submit our Squads and 6★ Operators?

No pre-submission is required. As long as there is no overlap among team members when the official run starts, it is valid.

[Competitive Rules]

Q Is node refreshing allowed before starting the run?

No. Node refreshing when confirming the Floor 1 map (before starting the run) is prohibited.

Q If a 6★ Operator is recruited via temporary recruitment, can another team member recruit that same Operator?

No. Under no circumstances can 6★ Operators overlap within the team. This rule also applies when recruited via Doctor Silver Seal.

Q What if "Fated Encounter" does not spawn at 1st Uncanny Encounter?

Runners may reroll Operation Rewards infinitely. However, timer will not reset.

Q Until when can a Retry be declared?

A Retry is permitted exactly once before entering the first battle node on Floor 3. Retries are not allowed after that point.

Q Does the 3-hour timer continue ticking during rerolling?

Yes. Only the first retry declaration resets the 3-hour timer. Subsequent reroll attempts consume time continuously.

[TP & Standings]

Q If an enemy leaks while using "Ho'olheyak" equipped with Stage a Module, is it considered "Leakless"?

Yes. In that case, because the effect of Operator Ho'olheyak's Stage a Module prevents Life Points from decreasing, it is treated as "Leakless".

Q Do Normal Operations sharing stage names award TP?

No. Only designated Emergency Operations, Floor 3 Empowered Bosses, and Endings listed in the scoring table award TP.

Q Can I receive floor spawn bonuses or status bonuses if I fail to clear the stage?

No. Clearing the target stage is an absolute prerequisite for receiving any TP. If a stage is failed or retreated, no TP is awarded.

Q How is TP calculated when fulfilling multiple conditions in one stage?

All fulfilled criteria are cumulatively added upon clearing. (e.g. Clearing "Heavenly Paradise" on Floor 5 grants Clear (+40) + Floor 5 Spawn (+60) = 100 TP.)

Q If an enemy leaks in an Emergency Operation, do I lose the "Leakless" bonus?

In Emergency Operations, if "Finale Cadence" is the SOLE enemy that leaked, the stage exceptionally qualifies for the "Leakless" bonus.

Q Is leaking "Finale Cadence" in "Fate's Finale" also treated as Leakless?

No. The "Finale Cadence" sole-leaker exception applies ONLY to Emergency Operations. In "Fate's Finale", leaking "Finale Cadence" will break Leakless status as normal.

Q If I clear the same Emergency Operation multiple times in one run, do TP stack?

No. Duplicate clearances of the same Emergency Operation do NOT stack. Only the single highest TP score achieved on that stage is counted.

■ Glossary

Term	Description
TP	Tournament Points used as the custom scoring metric for ranking teams.
Leakless	Clearing a stage without losing Life Points to any enemy (sole-leaker exception for "Finale Cadence" applies ONLY in Emergency Operations).
Fractured	Clearing a stage while affected by the in-game "Fractured" status debuff.
Operation Rewards	Starting perk granted upon reaching Floor 3 in a previous run. Can be rerolled.
Fated Encounter	Special tournament event at Floor 1 Uncanny Encounter node. If missing, reroll for Operation Rewards is granted.
Amplification effects	Floor 1 starting stat/impression enhancement effects. Rerolling via node refresh is prohibited.
Reroll	Repeatedly restarting early exploration during a retry to optimize Operation Rewards or events.

■ Revision History

Date	Version	Changes
August 18, 2026	Ver. 2.0	Major Rule Revision (Removed Fated Encounter start, updated run start position, added missing Fated Encounter retry rule, updated main event dates, adjusted Fate's Finale TP to 150).
August 1, 2026	Ver. 1.2	Added Application Form URL and Prospective Investment restriction
July 23, 2026	Ver. 1.1	Cover Design Change
July 22, 2026	Ver. 1.0	Initial Publication (TOGOSAI -yoro- Official Rulebook Enacted)
